

Colenta[®] INDX 43 2.0b

COLENTA Industrial Film Processor:

Type: INDX 43 2.0b

For processing all regular used type of Rolls/Cut sheets of industrial x-ray films.

| | DEV-Time | Cycle Time | Intake Speed |
|-----------------------|----------|------------|--------------------|
| INDX 43 2.0b : | 22sec to | 1'5"min to | 85cm/min to (min.) |
| max. 43cm (17inch) | 124 sec | 9'4"min | 16cm/min (max.) |

A fully automatic medium range film processor designed for free standing or "through-wall" darkroom loading incorporating a warm air, flat path dryer with an inbuilt internal air flow / exhaust to ensure efficient drying and good operating conditions. Provides a maximum feed width of 43cm/17in for sheet and roll film and easily adapted to the preference of a table position or onto an open stand.

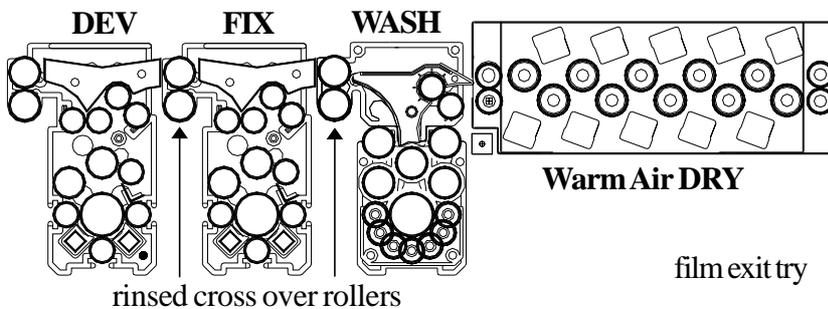

Standard Features :

- compact / robust design - ease of operation
- intermediate rinse rack bath system
- *automatic film-in dedection (pulsed IR sensorbar)
- *automatic replenishment system for DEV & FIX
- *automatic heating / cooling for DEV and FIX
- auto antioxidation / auto anticrystalization cycles
- inbuilt filtration system for DEV
- seperate drain for DEV, FIX and WASH
- CE declaration according EN
-* microprocessor controlled & preprogrammable
- standard 230V 50/60Hz 16A power supply

TRANSPORTSYSTEM:

Type INDX 43 2.0b

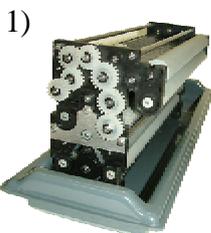

Standard accessories:

- Replenisher storage tanks 2x30Liter
- micro processor controlled display
- small user spare part kit

Accessories:

1) Rack Carrier Tray/Drip Tray for easy handling the transport racks (incl as standard).

2) Cover Lid for Film Feed Tray (optional)

3) stand for processor (optional)
